Addressing Contacts

I have started to prepare for officer training and keeping in contact with clubs while doing so is very important. If your school has not yet been contacted I will be doing so soon! I promise you that ensuring that I have a strong connection between the clubs and myself is my top priority. I hope to see you soon at events over the summer!

Summer Service

I wanted to address summer service because I know how much of an impact we make during the school year when we complete our hours. However, I see a lot less service done during the summer but it's important to keep service a constant at all times of year, so help me start an initiative of Summer Service. If you would like to help out during the summer, give me the chance to help you find opportunities and become more connected with our local community!
