Hello Division 10!

I hope your May has started off on the right foot, with school coming to an end and summer right around the corner. I know it is difficult to keep going, but you can make it, we are almost there. Look forward to sleeping in and long hot summer days.

Club Contacts

I really want to make this newsletter a way to communicate and easy to provide updates for your club. With this being said please send me your club officers information. I will be able to add them to my contact list and keep you and your club in the loop.

Summer Activities:

- Bonfires
- Picnics
- Water balloon fights

These are great ideas for club get togethers that can build memberships.
